22nd International Engineering
& Technology Fair
2 - 4 February 2017 • Pragati Maidan, New Delhi
Technology that drives success

POST EVENT REPORT

IETF 2017

INDIA GAMING SHOW

HEALTH TECH INDIA

The 22nd **International Engineering & Technology Fair (IETF) 2017**, the flagship event of the Confederation of Indian Industry (CII) held from 2-4 February 2017, Pragati Maidan, New Delhi, India. **Shri Anant Geete**, Hon'ble Minister of Heavy Industry and Public Enterprises, Inaugurated the event.

IETF 2017 had around 500 companies from 25 countries participated as exhibitors covering 40,000 sqm area. Japan participated as the Partner Country at IETF 2017 with 40 companies put up a large display of latest Japanese products and technologies. The expo mainly focused on future technologies for eight industrial sectors - Green Mobility, Industrial Automation, Logistics, Metal & Metallurgy, Real Estate & Building Technology, Water, Waste & Recycling, and Welding & Joining Technologies.

For the first time, three concurrent events – Health Tech India, India Gaming Show and Knowledge Expo were organised as part of the event, enabling technological and knowledge convergence on a single platform.

The mega event was also unique in the sense that it was supported by the Delhi Government, and Eleven Ministries of the Government of India – Ayush, Coal, Electronics & Information Technology, Environment, Forest & Climate Change, Heavy Industries & Public Enterprises, Health & Family Welfare, New Renewable Energy, Petroleum & Natural Gas, Road Transport & Highways, Steel, and Urban Development.

ABOUT CII

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering industry, Government, and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, playing a proactive role in India's development process. Founded in 1895, India's premier business association has over 8000 members, from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 200,000 enterprises from around 240 national and regional sectoral industry bodies.

CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship

programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, healthcare, education, livelihood, diversity management, skill development, empowerment of women, and water, to name a few.

The CII theme for 2016-17, Building National Competitiveness, emphasizes Industry's role in partnering Government to accelerate competitiveness across sectors, with sustained global competitiveness as the goal. The focus is on six key enablers: Human Development; Corporate Integrity and Good Citizenship; Ease of Doing Business; Innovation and Technical Capability; Sustainability; and Integration with the World.

With 66 offices, including 9 Centres of Excellence, in India, and 9 overseas offices in Australia, Bahrain, China, Egypt, France, Germany, Singapore, UK, and USA, as well as institutional partnerships with 320 counterpart organizations in 106 countries, CII serves as a reference point for Indian industry and the international business community.

ABOUT INSTITUTION OF LOGISTICS

The Indian logistics market accounts for \$90 billion and is slated to grow at the compound annual growth rate (CAGR) of over 16% from 2007-10.

To address the need of sharpening India Inc's competitive edge through better Logistics and Supply Chain practices, CII Institute of Logistics (CIL) was established in 2004 by the Confederation of Indian Industry as a Center of Excellence in Logistics and Supply Chain.

At CII Institute of Logistics we create a platform for the Industry to gain more insights into the emerging trends, industry specific problems of national importance and global best practices in logistics & supply chain management. We enable the industry to cut down the transaction cost, increase efficiency, and enhance profitability and enable to sensitize and bring solutions to macro level issues.
